STAT

SUBJECT: Research and Development Programs

The Directorate of Science and Technology is in the process of formulating their RD&E program for the period 1982-84. The Office of Logistics has been asked to provide descriptions of the problems requiring R&D that we foresee surfacing during this time frame. While it is recognized that these problem areas will be described in general terms, they should represent realistic proposals that we intend to actively pursue. Please be as detailed as possible so that DDS&T can be responsive to our anticipated needs. Your response should be forwarded to the Plans and Programs Staff on or before 5 October 1977. Negative replies are required.
